

Computer Science at Sheffield 10 reasons

1. **Research-led teaching** – We challenge you to do your best by leading the way. We were rated as a top department in the last national research selectivity exercise.
2. **Software Hut** – You will develop software for external clients and be rewarded by them.
3. **Genesys** – You will run a software company as part of a 4-year degree.
4. **Investment in facilities** – We are currently investing £120,000 in new equipment for the student labs, so that more PCs and space are available to you to support your work.
5. **Virtual Reality Lab** – We have recently invested in state-of-the-art virtual reality equipment to support both research *and teaching*.
6. **Streamlined curriculum** – We have designed the curriculum so that early years prepare you for the wealth of topic choice in later years.
7. **Investment in people** – We have recently recruited 2 new professors and 3 more lecturers so that each member of staff has more time to devote to you as an individual.
8. **Investment in your future** – We invite companies to the Department to showcase what our students can do; many students have obtained jobs via this process.
9. **Winners** – More Sheffield Computer Science students than from any other UK university made it to the finals of the 2004 Microsoft Imagine Cup; Sheffield Computer Science students were members of the teams that came first, second and third.
10. **Fun** – The intelligent web, computational biology, e-commerce, 3D computer graphics, robotics, verification and testing, machine learning, natural language processing, speech and hearing: there is a topic that will interest you at Sheffield.
